

Williams Refrigeration solutions are

BRIGHT

Williams has taken the best features from the Cameo and made them BIGGER. Introducing the NEW Cameo Tall, with smart, bright LED lighting and even more display space.

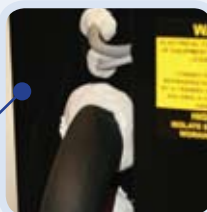

*As seen
at the 2009
Sydney Fine Food
trade show!*

- Your customers enjoy a better view of your product. Williams famous one piece door frame is now thinner to optimise the viewable display area.
- Improved visibility of display with brighter LED lighting.
- Well-lit shop or intimate bar setting? You control the display brightness with the optional dimmer switch.

C6503HR features

- C6503HR – 1575mm W x 980mm H (body height) x 650mm D
- Storage temperature range of +1°C to +4°C
- 730 litre nett capacity
- Two LED light strips per door
- Coved vertical and horizontal internal liners
- Available in two, three, or four door models.
- Choice of left or right hand connections.
- Pipes cleverly exit the side of the unit at the rear for flexible installation.
- Removable shelving system for easy cleaning

- Flexible display options—your choice! Five rows of beverage cans, four rows of beer bottles, or two rows of wine bottles.
- Your products maintain a consistent temperature delivered by the Cameo Tall's new evaporator design.
- Superior energy efficiency. LED lighting draws less power.
- Quality finishing to suit your environment. Available in tough, full stainless steel with a quality powder coated finish.
